Pultrusion Machine Specifications:

Pulling Capacity	1000 kgf. - 4000 kgf.		
Product Size Range Width X Height	6mm X 3mm - 125mm X 50mm		
Pulling Speed mm / min	0.02 Meter/Min. - 4.0 Meter/Min.		
Die Clamping Bed	800mm [W] X 1000mm [L]		
Puller Width	100mm - 300mm		
Pulling Action	Mechanical Power Transmission and chain with pulling pads		
Clamping Force	By Pneumatics Cylinders		
Heating Zone	4 Nos		
Electrical Power Required	2.0 - 3.5 Kw. Heating Requirement (Depending up on Size of mould)		
Compressed Air Required	3-4 CFM at 5 -6 Kg/Cm ² Pressure.		
Approximately Overall Dimensions	Length	Width	Height
	2500-3000mm	600-1100mm	2100mm
